"Por Goes the Weare," has become the chains of a thousand who sing it ever heard its origin. A famous Methodist preacher by the name of Craven, was once preaching in the heart of Virginia, and spoke as follows: "Here are a great many professors of religion here to-day. You are steek, int, good-looking, yet something is the matter with you. Now, you have seen wheat which was plump, round and good-looking to the eye, but when you welghed it you found that it came to-45 or perhips 48 pounds to the bushel, when it should have been sixty or sixty-three pounds. Take a kernel of wheat between your when it should have been sixty or sixty-three pounds. Take a kernel of wheat between your thinds and finger, hold it up, squeeze it, and—pap goes the weevil. Now, you good looking professions of religion, you are plump and round, but you only weigh some 45 or 16 pounds to the main. What is the matter? Ah! when you are taken between the thumb of the law and the finger of the gospel, held up to the light and squeezed, out pope the whiskey hottle. "From "pop goes the weevil" to "pop goes the weasel," the transition is easy.

sel, the transition is easy.

237 A lady in this city, says the Newark Fagle, was recently visited by a female servant who had been married, and seeing that she presented an appearance of having much bettered her rireunstances, she inquired the nature of her husband's profession. To this interrogatory, the young woman replied. "He is an asker, ma'am," "An asker," inquired the good lady in astonishment, "and what in the world is that?" "Oh, ma'am, he stands in the street, and asks." "Why, you don't mean to say you have married a heggar, do you?" "Yes, ma'am, but it is a very good business; my husband thinks it very hard work, if he don't bring home more than five shillings a by."

Thursday Morning, June 12. T See First and Fourth pages for Misceliany, Poetry & Advertisements. NEWS OF THE MORNING.

The drenching rain of last night, refreshing the parched and thirsty earth, is the best item of news this morning.

We get some interesting items by telegraph. There is a rumor of Fillmore's declining the nom ination for President by the K. Ns. Senator Butler is preparing for an onslaught on Massachusetts, and we shall bear of some remarkably chivalric language from that pink of

courtery.

We invite special attention to the article from the Chicago Tribute, from the Kausas Committee there.

Our Kansas correspondence brings down the history of affalsa in that Territory to a late date -Jone 3d. The letter will be found very interesting. The letter from Mr. Storrs which was enclosed will appear to-morrow. Steamers from Green Bay and from Luke Win-

nebago have met and saluted each other at Appleton, and the people of the Neenah valley are properly rejoicing thereat.

The S. Y. Press on Mr. Buchunni. that for all such as entertain the belief that there will be no struggle, the doors of some lunatic asylum had butter beopened at once.

We have no doubt of the fact that a wast majority of the American people, in the present distracted condition of the country, are opposed to the democratic party, as debauched and democraticed under the inalign influence of this Pierce Administration, and we believe that there would still exist a majority of the American people opposed to the ratification of the debaucheple opposed to the ratification of the debauchepio opposed to the radication of the decodene-ries of this corrupted party, even if they should nominate as their representative an angel from heaven. This is our conviction and our belief. Grant that as an honest man and statesman, Mr. Bachanan is a fair nomination, and that he is imthunder-past to clear away the misson and conrupting exhalations of a long sickly slege of the dog-days.

PATURE OF OF SORTS.—The Ratification fizzle of Saturday night seems to have soured the temper of our usually amiable and civil spoken neighbour, the News. After threatening ven geance upon those Democrats who disturbed the harmony of the meeting by their inconsiderate questions about the murder of Keating, the cra en ascault upon Sammer, and the robbing, burning and killing in Kansas, it turns angelly upon us, for venturing the suggestion that those who asked those questions were true blue Democrate and not a few of them Irishmen, and thus res

You will not find better accommodations, more gentlemanly officers, on more polite attention on any steamboats in the Union than on those of the Galena & Minnesots Packet Co. The new steamer Northern Belle is a beauty, and every thing that could be asked for a beauty, and every thing that could be asked for in a steamboat."

MR. BUCHASAN AND HIS TAIL.-The New York Evening Post, a veteran organ of the New York | the man to beekon and call them to come on, Democracy, speaking of Mr. Buchanan, says:-"No public man of our day is surrounded by so profligate a set of followers and admirers. miles above here by a party of three horsemen, armed with Sharp's rifles, revolvers and knives.—
He was forced to take an eath that he would not engage with either party in the war, and was informed by them that they intended to burn Capt the second day thereafter he would find it in ashes. They announced themselves a guerilla party in the employ of the United States Marshal. The intention to burn his house was conveyed to Capt. Walker, and he assembled some of his friends and prepared to give them a warm reception, should they make the attempt that hight. During the night a party of some fifteen rode up to the house, called a halt, and commenced dismounting, when they were fired on by the party, and they were fired on by the party within. One horse was ehot down and his rider captured by Cupt. Walker. Two others were taken prisoners by the party, and the rest found in the rich glating and shot, some suppose by the garty, and the rest were commanded by old Capt. Brown, and the others by Pate, the correspondent of the St. Legis Republican.

The Administration appears to have awakened escaped. This morning several hats and caps were found in the vicinity, and two horses, saddled and bridled, without riders, were feeding on

State men.

Be this as it may, there is abundant evidence abjectly to the Slave Power, than another would need to do. And no man ever evinced a greater planey or subserviency to that power than James Buchanan."

The Eterning Post says with great truth that Mr. Buchanan "is one who has ever floated passively on the party current, careful only to keep somewhere near the middle of the stream, at the place of the greatest personal safety. Of himself he is wholly menterptising, but he has

the policy inaugurated by Douglas and Pierce," and that "it is inpossible to regard the candidates of the Cincinnati Convention as either safe or available."

The Concier & Enquirer says, "Mr. Buchans is to-day a weak candidate with the majority of the American people, and as he becomes better understood he will rapidly become weaker."

Cot. Benton says that Buchanan is "a man of fair talents," but that he was "never a leading man, in any high sense."

And the Now York Herald, which inclines strongly to the South and the Pro-Slavery Denocracy, thus frankly expresses its opinion as to the prospect alead:

"Many of our hopeful Democratic fellow-citizens affect to believe that there will hardly be a fight with the majority will repeat the should be there to-night with a force of 200 men and two cannon.

Messas, Editors:—Things more steadily, but, apparently, surely on to a civil war. A HUMAN LIFE SAVED. Downgrac, Mich., March 11, 1850.

J. A. RHODES, Esq.:—Dear Sir:—As I took your medi ine on consignment, "no cure, no pay," I take pleasure a stating its effects as reported to me by three brothers the live in this place, and their testimony is a fair speci-

nen of all I have received:

W. S. CONELIN told me—"I had taken nine bottles of Christie's Ague Balsam, and continually run down while using it until my lungs and liver were congested to that legree that blood discharged from my mouth and bowsts, that all thought it impossible for me to live through unother chill. The doctors too, did all they could for me, but thought I must dies. Nothing did me any good until I got Rhodes' Fever and Agno Cure, which at once relleyd me of the distress and nauses at my stomach and pair

in my head and bowels, and produced a permanent cure in a short time," H. M. Conmin says: - "I had been taking medicine of as good a doctor as we have in our county, and taken any quantity of quinine and specifics without any good result, with operated on ray brother, I got a bottle of RHODES FIGURE AND AGUE CORE, which effected a permanent cure by using two-thirds of a bottle.<sup>19</sup>

F. M. Couries was not here, but both the other brothers

say his case was the same as H. M.'1. I cold the medicine to both the same day, and the cure was as speedy from the same small quantity, and I might so profit. Yours with respect, A. HENTINGTON. The above speaks for itself. Good proof as it is, it is of o better tenor than the vast number of like certificates ave already published, and thestill greater amount that

is continuatly pouring in to me.

One thing more. Last year I had occasion to caution e nublic in these words: ne puone in these woods:

"I notice one firm who have taken one of my general
streutars, substituted the name of their postrum for my medicine, and then with brazen impudence end thei camplied with the exclamation, Let the proprietors iny other medicine say as much if he dare, ' de.

Now I take pleasure in saying that the Caution referre to the same "Dr. Christle's Ague Balsam" that's mentior d in the above certificate. There are several other industrious people who are ap plying to their poleonous trash all that I publish about my Perer and Ague Cure, or Antidote to Malatia, except the Certificates of Cures, and the certificate of the celebrated Ghemist, Dr. James R. Chitton, of N. Y., in favor of its HARMLESS CHARACTER, which is attached to every hot-

Important Improvement in Painting!

PERMANENT GLOSS PAINT.

Important Improvement in Painting!

PERMANENT GLOSS PAINT for interior work has long been a desideratum. All paints prepared from linused oil, will rapidly turn from the lighter and most opposite that to the yellow color of the oil inself; the change being the more rapid as the paint is exicated from the tuil light of day.

The subscriber, fater a sufficiently long experience in its use, can recommend it as the only Gloss Paint in which this important defect is effectually remedited. This beautiful paint can be applied of any color, from the purest white, resembling enamed or percelain, to all the different varieties of tints, suitable for private dwellings, Churches, Hotels, &c., whilst in brilliancy and richness of surface is surpasses all other paints; it possesses superior advantages in retaining permanently even the most delicate colors with which it is combined.
